Tactile Graphics Template

1. For APH production purposes keep graphic within the boundary of the template

2. For best results keep the margins the same as shown on the template:
   a. Top margin: 1/2 inch (13 mm)
   b. Bottom margin: 1/2 inch (13 mm)
   c. Left margin: 1 inch (25 mm)
   d. Right margin: 3/4 inch (19 mm)

3. Accessible Textbook Dept recommends using Manila Braille Transcribing Paper (APH catalog # 1-04540-00). This paper is more durable for mass production of tactile graphics.
